“These people are insane. They have to be. Because what is Satan after all? It's an allegory for the Jews. Period. That's it. There's no red devil running around with horns and a tail. Holding a spear. It's merely an allegory for the Jews.” -The blessed James Mason

Section One: Introduction to the Booklet

This is meant to be an informative guide for National Socialist Accelerationists on how to identify and fight Satanism within our ranks. The author of this booklet is a Lutheran, Positive Christian, a Christian Identity adherent, and a follower of the Universal Order. I have been persecuted by the FBI for my dissident activities. I am a pure White Aryan of mainly German, Polish, and Irish ancestry.

I wish to cause the complete removal of Satanism and other forms of fed infiltration from the White resistance. National Socialists have made some good progress in fighting the ONA in the last few years such as the brave efforts of the Zyklonkrieg Division, National Socialist Resistance Front, Siegeculture, and Iron Skull Division.

Heil Christ!

Heil Hitler!

Heil Victory!

Section Two: Beliefs of the Order of Nine Angles

The ONA's beliefs are a weird mix of Satanism, ancient Mesopotamian mythology, European Paganism, and Canaanite beliefs that the ONA collectively call “Traditional Satanism.” The ONA believe that there are dark "gods" such as Satan and a female demon they call Baphomet. They believe that humans live in the causal realm and the dark "gods" live in the acausal realm. The ONA seek to leave

the causal realm and go to the acausal realm which they use an intermediary called a "nexion" for. The term nexion has also been used by the ONA and its offshoots to refer to regional cells that follow Traditional Satanism. Traditional Satanists believe in an occult tradition they call "left-hand magick." They often cut themselves, flog themselves, or perform some other form of torture for these rituals. ONA groups also believe that murder, rape, pedophilia, and other degeneracy can be used for these rituals. Sex rituals are often used by ONA cults. The ONA often call their beliefs and rituals by the term "sinister." The ONA offshoot "*Temple ov Blood*" has laid out all the practices surrounding these rituals in their book "*Liber 333*."

All of these beliefs are fake and don't actually mean anything substantial. The degenerate rituals are simply a justification for the already degenerate behavior of ONA Satanists. ONA groups have been connected to various cases of rape and child sexual abuse. The case of Angel Almeida is one example. In 2023 Almeida, a member of the ONA nexion 767, was caught possessing child porn by the feds. Funnily enough, Almeida is a Portuguese name common in Brazil and Angel Almeida has brown skin. The pedophilic Satanist who larps as a National Socialist is Latinx.

ONA nexions usually follow a specific structure of ranks within the sinister magick order. The ONA hierarchy goes as follows in order from least to greatest:

- Neophyte
- Initiate
- External Adept
- Internal Adept
- Master of Temple/Mistress of Earth (or "Lady Master")
- Grand Master/Grand Mistress (or Magus and "Grand Lady Master")
- Immortal

Infiltrating extremist groups, and in the process recruiting more people for Satanism, lets you advance through the ranks. Essentially, the more people you recruit for the ONA the higher you can rise in power. This is the same structure that is used by most pyramid schemes.

Section Three: History of the Order of Nine Angles

According to the Order of Nine Angles they were founded in the late 60s by a woman who was a member of a Pagan sect that survived the Christianization of Britain. This is likely total bullshit. The ONA's first cell was called "Nexion Zero" and was located in Shropshire, England. In 1973, Anton Long (real name David Myatt), who had been involved in various Pagan and occultist sects, joined the ONA. He quickly rose in power to become the Grand Master of the ONA. Myatt Encouraged the creation of new ONA cells which were part of a network of "Traditional Satanist" groups known as the "kollektive." Long added many elements of dharmic and ancient Mesopotamian religions into the beliefs of the ONA.

Prior to his involvement with the ONA, Myatt was involved in various White Nationalist groups such as Colin Jordan's British Movement. Myatt also had ties to the National Socialist group Combat 18. The ONA infiltrates political extremist groups on both the right and left so that they can use them for "glorifying the dark 'gods.'" In reality this means making them degenerate and fed-ridden. This can especially be seen with the Temple ov Blood. The ToB infiltration of National Socialist Accelerationist groups is the reason I have to write this booklet.

In 2003 a man named Joshua Caleb Sutter started work as an FBI informant. 2003 is also the year Sutter founded the ONA nexion Temple ov Blood. Even the kike media says that the ToB is a fed grou:[FBI funded neo-Nazi book publisher, court docs reveal](#). In 2004 Sutter founded the Rural People's Party. The RPP was a far-left militant group that espoused "militant Juche-style communism according to material conditions of this country and era" and idolized Communist negrophile cult leader Jim Jones. [Rural People's Party](#) is their website. They believed in Maoist Internationalist Movement Theory which is a third worldist adaptation of Maoism that says White Western workers are bourgeoisie imperialists and that only coloured groups like Latinos and Blacks can achieve Communism. The RPP has been inactive since 2009.

"With a low-uttered, sibilating hiss, the Mistress of Earth sent her long and jagged knife careening wildly into the bound body of her chosen offer, a young man of Middle-Eastern descent who had been

brought, via the process of 'extraordinary rendition', complimentary airfare courtesy of her own government, to a clandestine U.S. base deep within the Syrian mountains." -Liber 333, Temple of Blood.

This passage from the ToB Satanic manual *Liber 333* is a self-admission of them having ties to the United States government. Another book written by the ToB is *Iron Gates*. *Iron Gates* is a post-apocalyptic fiction novel that has intense depictions of pedophilic rape, infanticide, and murder. Here is a short excerpt from *Iron Gates*:

"Don't shout or I'll shove it straight up your ass, little bitch!" A youngish girl with black hair arrayed in a hasty bun upon her smallish skull bucked wildly around, situated on all fours, her pert and youthful buttocks rotating round in a primitive rutting gesture as the lieutenant rammed his cock into her slick genitalia in measured and energetic strokes. At the lieutenant's admonishment, her animalistic grunting tapered into a low, sick hissing sound, not unlike that of an enraged cobra ready to strike."

I'm extremely sorry that you were forced to read that vile passage but it is useful for showing how depraved these people really are. For context, the girl being raped in this passage is around the age of twelve or thirteen. *Iron Gates* starts with a graphic literary depiction of infanticide. There are countless more cases of degeneracy being shown in ONA literature. The ToB just has the most hardcore of all of the nexions. Its infiltration abilities made it the most dangerous nexion for the National Socialist movement. While you can find ToB stuff online praising Joseph Stalin and Osama Bin Laden, after the RPP the various ONA nexions pretty much stopped their infiltration of Leftist and Jihadist groups. After this the history of the ONA pretty much exclusively includes their infiltration of Revolutionary National Socialist organizations such as the Atomwaffen Division.

Section Four: Satanic Infiltration

The ONA infiltration of National Socialist organizations can be explained by this quote from "The Seven Fold Way Of The Order Of Nine Angles A Modern Practical Guide:

"Some suggested Insight Rôles are:.....

..... Join or form a National Socialist political group or organization, and actively aid that organization, and especially aid and propagate 'historical revisionism'"

An insight role is ONA terminology for an extremely hard task (usually a political infiltration) that ONA external adepts can take. An external adept is one hierarchical position in the ONA spiritual hierarchy. This hierarchy can be seen in section two of this booklet. The ONA term for a Satanist that infiltrates a National Socialist group to shift it towards Satanism is "*noctulian*." Noctulian is basically the ONA term for what Nietzsche called the *ubermensch*. However, unlike the *ubermensch* or the Fascist new man, noctulians are degenerate, weak, character cripples. They watch degenerate pornography (oftentimes just straight up child porn.) The ONA sees National Socialism as merely a tool they can use to exalt Satan. If they believed that Liberalism or Communism was more effective for this purpose then they would decide to infiltrate them instead of us. Here is an article the ONA published where they admit they see National Socialism as only a tool and not as a worldview as we see it: [o 9 a » Blog Archive » The O9A, National Socialism, And Nihilism](#)

In 2017, Brandon Russell, founder and leader of the Atomwaffen Division, was arrested on bomb charges. The AWD had always been very decentralized but after Russell's arrest it fractured even further. During this time the start of ToB infiltration in the National Socialist movement began. One misconception is that Vincent Snyder (real name John Cameron Denton), who became leader of AWD after Russell's arrest, was a Satanist. This however is untrue. Here are some essays written by Denton: [Vincent Snyder – The American Futurist](#). He praises Christ in many of these. Here is one quote from Sermon II:

"7. Liberation begins with you. And the love of Christ is here for you, for the graceful Aryan is above all. The love of Christ conquers all, and the unity in Christ is the unity within ourselves."

Does this sound like something a Satanist would write? I do not believe it does. However it was during Denton's leadership of the AWD that Satanists started their infiltration. Dark Foreigner (real name Patrick Gordon Macdonald) is a notorious Satanist who played a role in the infiltration of the AWD. He is from Canada and is a member of the group *Northern Order* which from my knowledge is almost

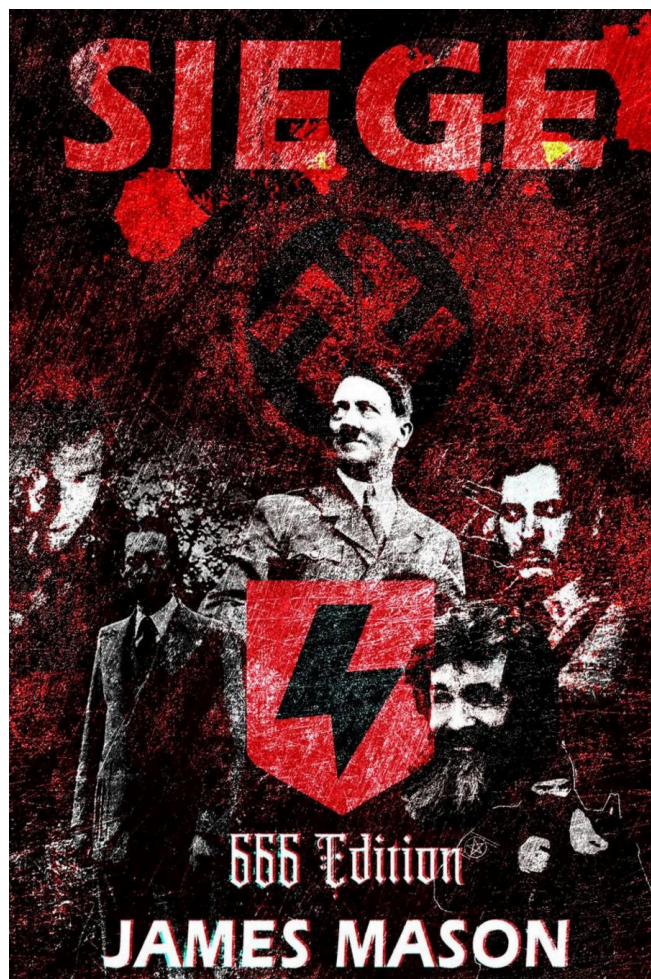

completely Satanist infiltrated. Because of his art skills (feds have access to the best tools and training), Macdonald was able to become very influential and even made the cover of the 2018 fourth edition of Siege. Here I have attached some proof of Macdonald's self-admitted Satanism:

It's a real shame that Macdonald is a Satanist because much of his non-Satanic artwork is very good. However I work in the truth and not in false notions. Forgiving Macdonald would threaten my policy of zero tolerance for Satanism. Thus, I must denounce him.

In July 2020, after getting very close to getting designated a terrorist organization, the AWD disbanded. After that a group known as the National Socialist Order emerged from former AWD membership and leaders. In 2022, after a Satanic infiltration, the NSO rebranded to the National Socialist Order of the Nine Angles. The members of the NSO who weren't total demon-worshipping sickos left and founded the National Socialist Resistance Front (which is further explained here: [The Founding of the NSRF – The American Futurist](#)). In 2023 the NSOONA released the 666 edition of

Siege. In it they denounced Commander Rockwell, the blessed prophet of God Charles Manson, and the blessed James Mason. Mason denounces this version of Siege in this video: [Satanic Exposé](#)

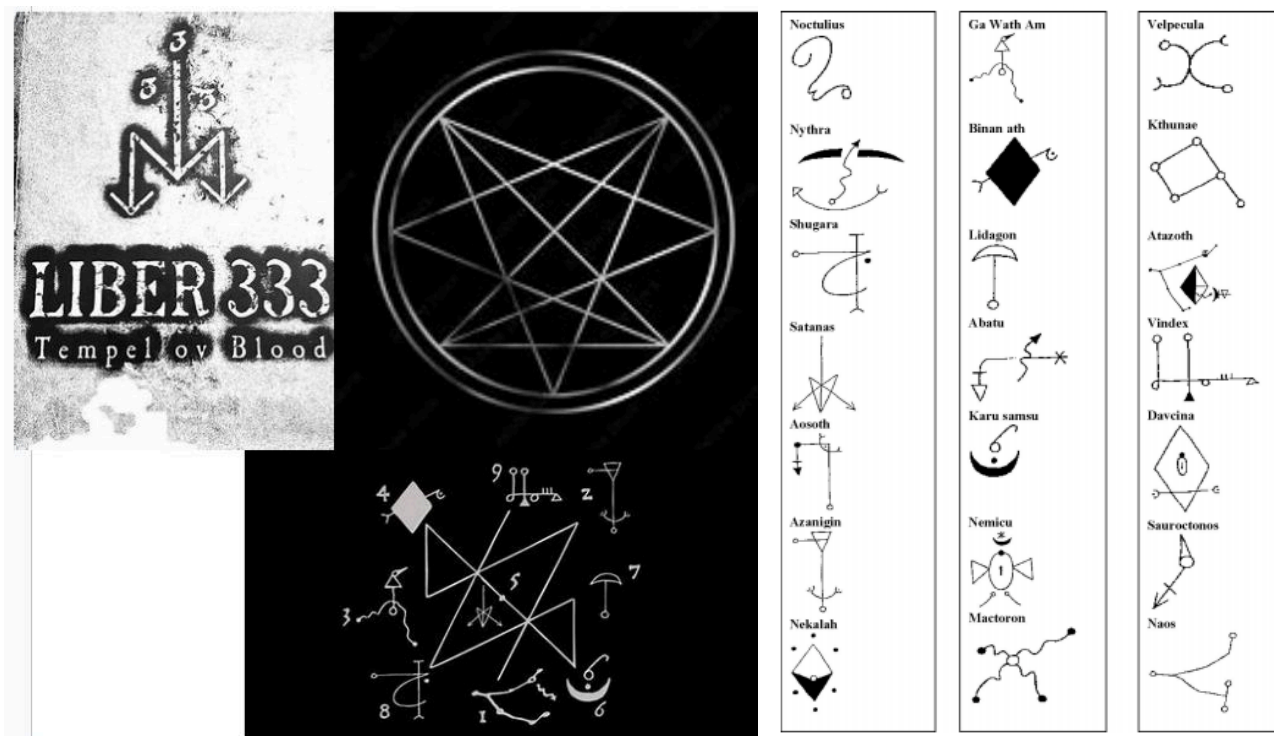

The cover of the 666 version of Siege

The Russian ONA nexion, called AAST is allied with the Rusich Group whose leader is an animal abuser. Both groups have taken part in Putin's Mongoloid churka invasion of Ukraine. Knowing how Russians treat Ukrainian POWs, the Russian ONA are most definitely responsible for the cult ritual torture of our Ukranian NS bretheren. AAST likely has performed human sacrifices on the martyrs of Ukrainian National Socialism. I wouldn't be surprised if the AAST are largely of Tatar extraction.

In 2022 a ONA nexion calling itself "*Rapewaffen*" was formed which advocated for the mass rape of White women with the goal of raising White birthrates. The ONA are largely misogynists. Misogyny being only one of many colored poisons embraced by the ONA.

Section Five: SYMBOLISM

One of the signs that someone is a ONA Satanist is the symbolism they use. Many Satanist symbols such as the pentagram and The Goat of Mendes are ancient White Pagan symbols that only later on got hijacked by Wiccans and then by Satanists. Here are some symbols used by the ONA:

The ONA also uses other symbols that are used in Satanist organizations and cults.

Section Six: The Final Solution -Zero Tolerance

The only solution to the ONA plague is that of zero tolerance. We must never collaborate with or interact with ONAfags at all. Even the littlest bit of sympathy leads to the opening of our groups and communities to infiltration. You can't be neutral on this issue anymore. You're either with us or them. It's the National Socialist movement or federally-supported degenerate Satanism. We are fighting a war. A

war for our very existence. The last stand of the White race in the insurgency against the system, the race traitors who collaborate with the occupiers, and the coloured masses the system uses to replace us. The ONA are race traitors used by the system to strike deep into the resistance to cause discord among our comrades.

VICTORY OR DEATH!
